

“In terms of getting the most out of our money, the best thing we have ever done at our Tennessee Tech baseball stadium is to add the BleaChairs to our existing aluminum bleachers. You talk about an upgrade in the looks of our stadium - WOW! Adding the BleaChairs, has literally added another dimension to our field and has helped in recruiting as well. Also, we used to have a bad sun glare off the aluminum bleachers that we no longer have. I recommend Seating Solutions to anyone that wants an immediate 'true' stadium feel for an affordable cost.”
