

DEPARTMENT OF INTERCOLLEGIATE ATHLETICS

Men's Soccer

I would like to take this opportunity to comment on the experience we had working with Seating Solutions on our Soccer field bleacher project. In 2010 we spoke with Seating Solutions about a portable seating system that could be shared with our different facilities on campus.

Seating Solutions assisted us by designing the perfect system for our needs but budget constraints and a lack of lead time did not allow us to move forward with the project. To our surprise Seating Solutions was able to design a similar seating system that we rented at a reduced price to get a feel of what the seating had to offer. The seats were a huge hit and helped us gain the support to raise the additional money needed to purchase the permanent seating in 2011.

Fast forward one year and we now have our portable bleacher system with BleaChair Maximus and it has been the perfect solution for us. The units transport so easily it is a breeze to move them from field to field and our grounds crew can easily handle it.

The BleaChair Maximus seats are even more comfortable than we thought and have allowed us to supply a comfortable seat to our fans at a fraction of the cost of a flip up seat. We custom matched our tan color that we use on all of our buildings on campus; it truly is a sight to see.

The support and level of care that Seating Solutions showed on the project was among the best I have ever received. They made sure that every one of our needs were met and supplied a quality product in our tight timelines. Both the rental and purchase of our bleachers in 2010 and 2011 went off without a hitch.

I would recommend Seating Solutions to anyone who has a need for stadium seating. One aspect that sets them apart from other companies is their ability to both rent and sell you your seating system which allowed us to try our seating system out and see if the demand was there for the seating without committing to the full purchase. Our experience with them was top notch and we are looking forward to purchasing more BleaChair seats for our opposite side bleachers next year.

Sincerely,

Tom McIntosh
