To Whom It May Concern:

I am pleased to write this letter of recommendation for DreamSeat. DreamSeat has recently provided Northern Michigan University with the Excel VIP theatre seating as well as several Office Chair 1000 furniture products. The quality of these unique products has exceeded our expectations.

With the construction of our new Athletics Department Film Room, we were searching for a product to enhance the room and assist in the recruiting process with potential student-athletes as they enter our facility. The project has been admired by all that enter the room.

Our sales representative, Matt Sobel, was very helpful from the beginning ensuring the logos were created exactly to our standards with our school colors as well as keeping us updated on the delivery process.

I encourage any institution to consider DreamSeat if they would like to showcase their University brand. We at Northern Michigan University are pleased and excited and recommend DreamSeat furniture products.

Sincerely,

Brandon Sager
Assistant Director – Facilities
