## RENT THE SEATING YOU *WANT*, NOT WHAT OTHER COMPANIES HAVE.

---

If you're looking for a cost effective general admission seating area then our "safety code compliant" Ultimate Bench seating is your solution! We have designed two versions of this Ultimate system, "Ultimate 24" and "Ultimate 30".

Our 24" tread depth system is the typical industry standard for bleachers. This is certainly the way to "pack-em-in!" Other systems offer only an 8" rise per row. Our 9 1/2" rise per row allows for greater sightlines to the field of play.

# OPTIONS FOR ANY VENUE OR EVENT.

Have extra space and want more comfort? Try our 30" tread depth Ultimate system with increased leg room and additional safety in the extra row space. This version can be built with a 6" or 12" elevation change per row.

The "Ultimate 24" and "Ultimate 30" is your Ultimate Seating Solution!

Seating Solutions is the manufacturer of our own innovative product providing you with the unique advantage of custom designing your own seating system TO RENT! Unfortunately, we can't solve all your seating problems in this introduction. That would require a phone call. But we want to hear from you! We enjoy working with clients to come up with creative solutions for their unique seating situations. No phone call is wasted! We will work around the clock for you, whether you decide to work with us today, or five years from now, we guarantee to have a solution for you!
