Seating Solutions
60 Austin Blvd.
Commack, NY 11725

Dear Patrick:

I wanted to take the time to thank you and the entire Seating Solutions staff for all you did for Florida Citrus Sports and the Buffalo Wild Wings Citrus Bowl at the Orlando Citrus Bowl Stadium. The last minute seating you provided for the event was the perfect addition to the game and helped us maximize the amount of high end seats closest to the action. The speed at which you provided our design drawing and pricing allowed us to move forward with your company when we thought it would be impossible to add quality seating.

The finished product was a high end seating system that matched the look and feel of our prestigious facility. The service was fantastic and the quality of your product made the bleachers look as if they were a permanent piece of the Orlando Citrus Bowl Stadium and was exactly what we envisioned. Whenever I or someone from my team had a question you were available and made the process easy and enjoyable, beginning to end.

In closing we would recommend Seating Solutions to anyone looking for an innovative temporary or permanent seating system. Your level of knowledge, service, and quality of product is the best in the industry. We look forward to continuing our relationship with Seating Solutions and will definitely use them for next year's Bowl game. We have already started discussing custom designs and are excited about the possibilities that a whole year of planning will bring. Thanks again Seating Solutions!

Sincerely,
